PLEASE READ

When the Temperature is hot, sometimes the female does not take and you can choose from another litter or wait till that female comes back into heat and be first in line. There are sometimes that a female will not take and we just don't know why. There may be times when a female has complications during pregnancy and the pups might not survive and you will be moved to a litter of your choice. If for some reason the buyer is unsatisfied or I cannot provide a puppy from said litter, the deposit will be placed on another litter. (Upon availability). Buyer is responsible for paying the difference in price. You may place your deposit on upcoming litters if not happy with current litter. If you put a deposit down and the choice of female and male don't produce what you want (sex or color) you can choose from another male and female and your deposit will go toward it or toward the same female for future litters. We try our best to know what they will have from previous litters (color wise) but this is out of our control as it is controlled by the dog's genes. If you are unable to keep your puppy for any reason, we will take the puppy back. This applies to the original purchaser only and we must be notified if ownership of the puppy changes.

When the pups are 3 weeks on age and you decided that don't want the pup that you first picked out and want a pup from a different litter and you have not told HENDERSON LABRADORS about the change, you will forfeit the 200.00 deposit and have to put another 200.00 deposit down to get pup of your choice and you will also give up all payments made on previous pup. You can transfer your deposit from litter to litter and we encourage that if the exact puppy is not available in a litter. Health Guarantee is VOID if the dog /puppy is sold to another party or given away.
